Strengths and Opportunities Matrix

CATEGORY	POSITIVE INDICATOR	STRATEGIC IMPACT
Financial Performance	All-time high EBITDA, 6% revenue growth year-on-year, debt repayment of \$95 million.	Demonstrates resilience despite market headwinds, signals financial stability and the commitment to deleveraging.
Operational Excellence	Maintained 96% of last year's sales volume despite supply disruptions (Biparjoy Cyclone), proactive management of inventory levels.	High operational efficiency allows the company to navigate difficult market conditions, improve response time to market changes, and reduce costs.
Market Position	Maintaining a strong market share in India, consistent performance of the US and UK businesses, proactive engagement with customers.	Demonstrates a strong customer base and successful relationship management which is crucial in a competitive market and through various global uncertainties.
Innovation and Expansion	Ongoing expansion plans in India, Kenya, and the US (totaling about 1 million tons), scaling up salt capacity in India, pharmaceutical-grade salt plant in the UK to be operational by year-end.	Long-term growth potential, diversification into new markets, and higher capacity will improve the company's competitive advantage.

ESG (Environmental, Social, and Governance)	Not explicitly mentioned in this transcript.	ESG considerations can positively impact reputation, investor appeal, and business continuity. The company can implement a clear ESG strategy as an opportunity to improve.
Risk Management	Proactive monitoring of market dynamics, hedging strategies for energy costs, and focus on cost optimization and debt reduction.	Demonstrates a robust risk management strategy. Adapting to unexpected circumstances strengthens resilience and positions for long-term stability.
